## 'The Employment Project'

Information

# About the Employment Project

The Employment Project supports people with learning disabilities to find voluntary work, work placements and paid work.

Employment promotes social inclusion for people with learning disabilities. It helps to build confidence and independence.

Our aim is to achieve the goals, set by the individual, by providing person centred support.

The Grace Eyre Foundation also has a unique possibility to gain catering skills. The **Angel Cake Cafe** is open for work experience and voluntary work for people with learning disabilities who already have a background in catering but would like to expand their abilities before looking for paid work.

For people with no prior experience in catering work Grace Eyre also offers **12 week training programmes** at various levels to suit ability and need.

## Process of Employment

Grace Eyre prides itself on supporting people throughout every step of the employment process:

### Step 1

- ✓ Assess individual skills and experiences in employment as well as college courses.

### Step 2

- ✓ Find an appropriate employer.

### Step 3

- ✓ Provide a travel buddy or/and one-to-one job coaching until the individual can carry on its work independently.

### Step 4

- ✓ Review the placement on a regular basis.
