

Gender Pay Gap Report 2021

ABILITY · EQUALITY · INDEPENDENCE

At Grace Eyre we are proud of our diversity and ensure that everyone has equal opportunities. We recruit, train and promote on the basis of ability and requirements of the jobs.

As we have over 250 employees we are required to publish information regarding gender pay under the Equality Act 2010.

Our Vision is for a society where people with learning disabilities and autism can fulfill their dreams and wishes, are respected as equal citizens, are part of and contribute to their communities.

What is the Gender pay Gap?

The difference in pay between men and women is influenced by a range of factors including the demographics of the workforce. This is different from equal pay which is men and women receiving the same pay for equal or similar roles

We have to show in our report what our median pay is for men and women, as well as the mean.

How we calculate our results:

The **mean** is the average of the numbers. It is easy to calculate: add up all the numbers, then divide by how many numbers there are.

The **quartiles** show the number of men and women in each pay quartile.

The **median** is the middle point of a list of numbers. The median pay difference is the difference between the middle of women's hourly pay rate versus the middle of men's hourly pay rate.
